### **PRE-CONFERENCE MEETINGS in Liverpool**

Traditionally, we organise pre-conference meetings on the day before the actual EJTA conference.

On Wednesday 26 April afternoon, you're very welcome to join one of these premeetings:

#### **1. How to Teach Inclusive Journalism:**

Follow-up on the Poznan Inspiration Seminar, everybody is very welcome to think about inclusive journalism competences and how to teach them and to co-create templates for different formats.

#### **2. Taskforce Datajournalism Teaching:**

Follow-up on previous meetings, discussion on teaching materials.

#### **3. Thinktank Sustainable EJTA:**

EJTAlk9 (climate policy and sustainable internationalisation) inspires us to start a discussion group to think about future evolutions within climate policies and challenges for EJTA. We intend to have recurring meetings to talk about green conferences, sustainable travel, climate reporting etc.

(There is no pre-conference meeting on EUfactcheck.)

Specific details on timing and rooms for the pre-conference meetings: <https://www.ljmu.ac.uk/conferences/ejta-teachers-conference>

## **#EJTAik10: Chat GPT : The Rise of the AI Journalist ? March 31st 12:00 (CET)**

You've all heard about Chat GPT and its 'incredible' capacity. You've also heard a lot of biased or incomplete information. Let's take an hour to talk with Frederik Marain (AP, Belgium) and Eric Nahon (IPJ Dauphine, France) to face the challenges of generative Artificial Intelligence. How does it work? What kind of contents does it create (text, images...)? What can a journalist do with it and what challenges will we face as journalism educators?

Please join here EJTALK 10 : AI & Journalism (education)

31st of march 2023 11:45 AM Paris
